Emerging Technologies in E-Government

The future evolution of E-Government will greatly depend on the development of innovative technologies and architectures, which can match the need of changing times.

Emerging Technologies in E-Government brings together papers which highlight several interesting possibilities opened up by new technologies and architectures. These include intelligent systems, service oriented architecture, semantic web, open source platforms, and mobile applications. The book will be useful to E-Government practitioners who wish to either improve existing online services, or develop any new ones.

G P Sahu is working as an Assistant Professor at the School of Management Studies, M N National Institute of Technology, Allahabad, India. He has more than ten years of teaching and research experience. He obtained his PhD degree from Indian Institute of Technology (IIT) Delhi. His research interests are in the areas of MIS and E-Government. His research has appeared or is forthcoming in International Journal of Electronic Governance, International Journal of e-Government Research (IJEGR), Transforming Government: People, Process and Policy, and in edited volumes of various conference proceedings. He has coordinated several international conferences such as '5th International Conference on E-governance (ICEG 2007) at Hyderabad Central University, Hyderabad', 'ICEG 2006 at IIT Delhi', an International Conference on 'Integrating World Market-Living Excellence through Technology and Beyond....' (January 5-6, 2002). He has also edited books on 'Integrating World Market' in 2002, 'Delivering E-Government' in 2006, and 'Adopting E-Governance' in 2008. He is the Program Chair of the 6th International Conference on E-Governance, ICEG 2008 (18-20 December, 2008) at New Delhi, India. Dr. Sahu is a member of the Editorial Review Board of IJEGR and has guest edited international journals. He is also on the jury of CSI – Nihilent E-Governance Award. Email: gsahu@mnnit.ac.in.
